

Age Standardized Mortality Rates 1997-2003

By province, males and females
All cases and all cases excluding lung cancer

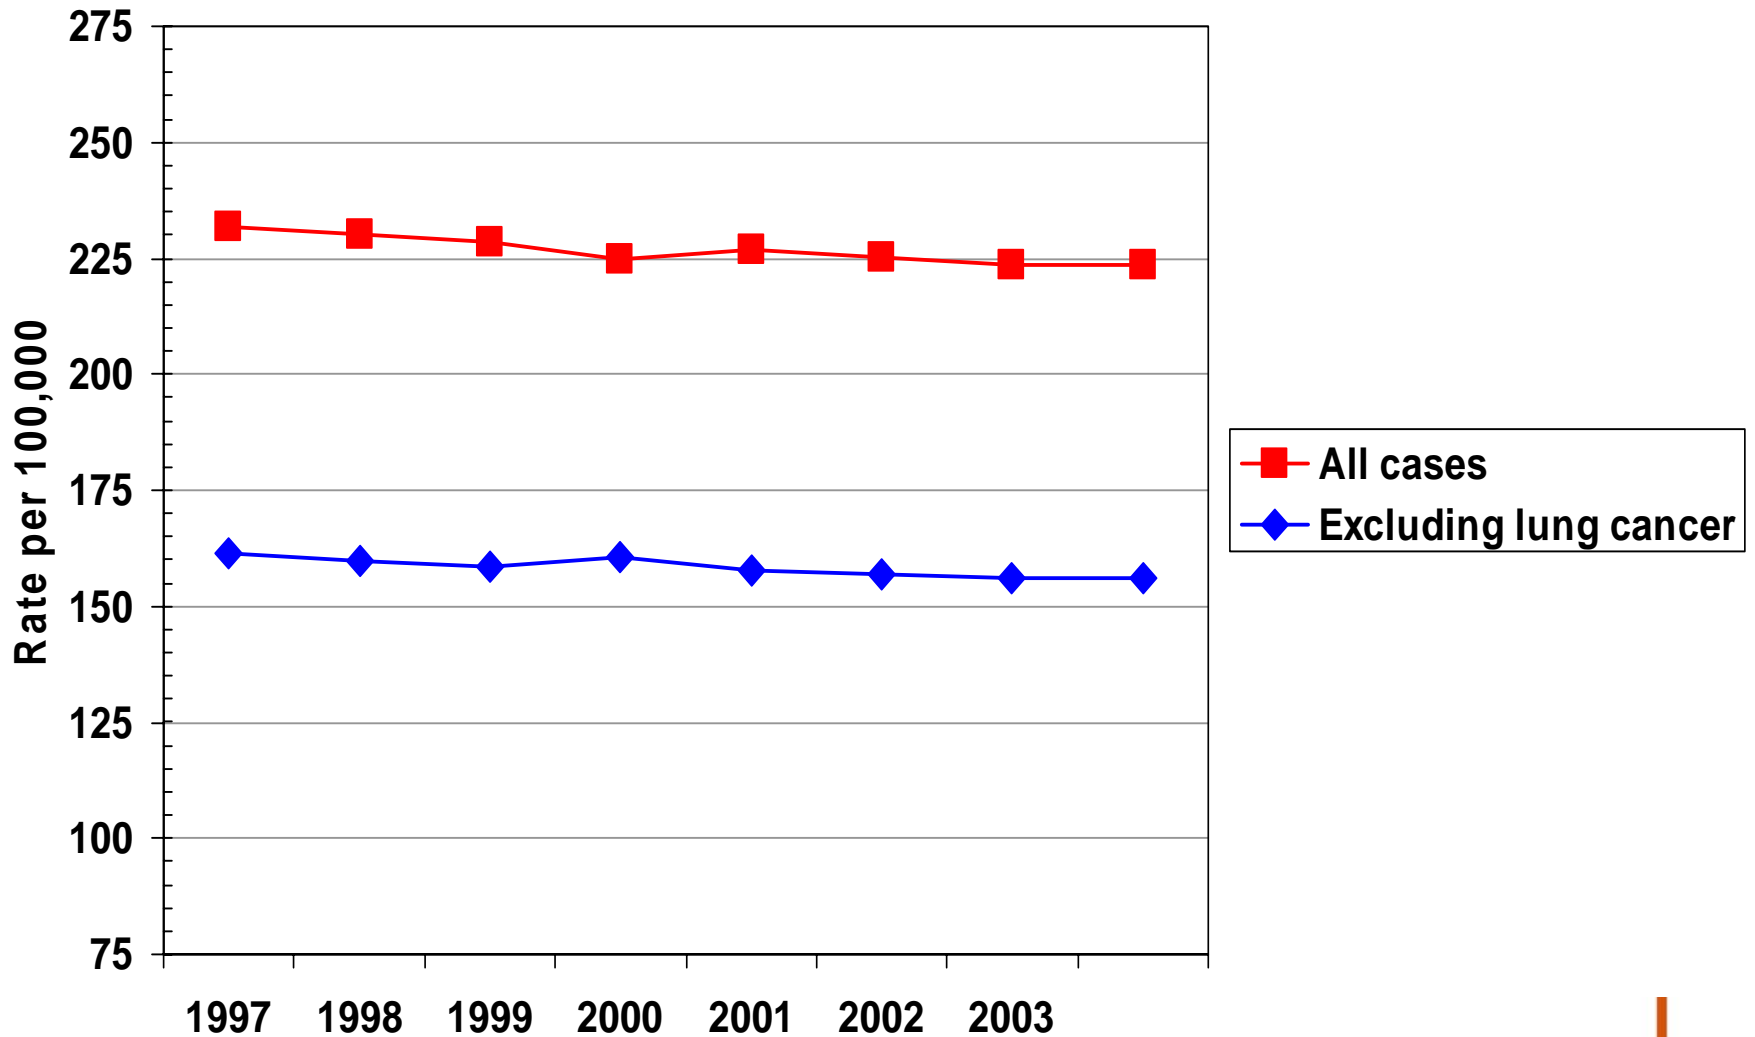

Data for 1997-2000 inclusive from Cancer Surveillance Online, actual cases
(http://dsol-smed.hc-sc.gc.ca/dsol-smed/cancer/index_e.html)

Data for 2001-2003 inclusive from Canadian Cancer Statistics 2003, estimates only
(published April 2003 by the National Cancer Institute of Canada)

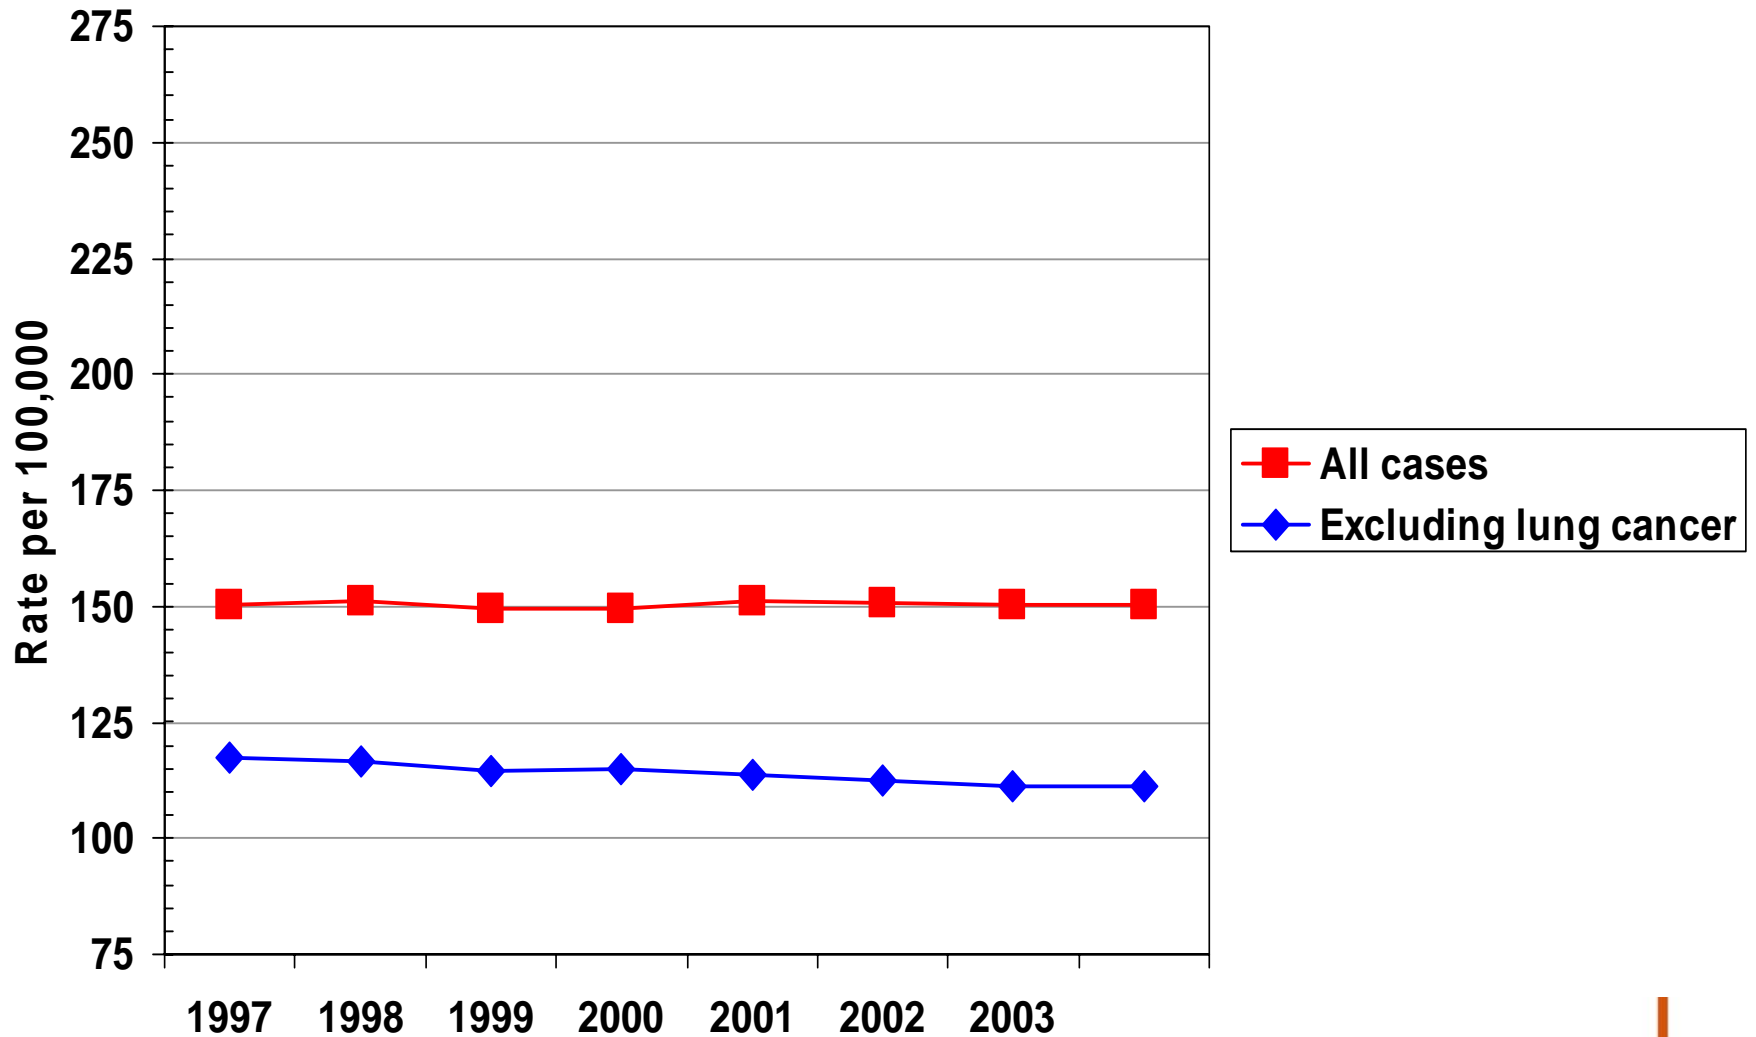

Cautionary notes

- Data for 1997-2000 inclusive are actuals, but for 2001-2003 are estimates from Canadian Cancer Statistics.
- Estimates for Canada as a whole are updated annually and the data here are from the 2003 publication, which adjusts the national estimate for all previous years.
- Estimates for provinces are only issued one year at a time, therefore the 2001, 2002 & 2003 provincial estimates have not been updated although the nation-wide figures were. For example: in the 2001 publication of Canadian Cancer Statistics, the national ASMR for males, all cancers, was estimated at 227.2 and for lung cancer at 68.6. Every year since then those estimates were adjusted, so that in the 2003 publication, the figures were shown as 227.0 and 69.1 respectively, even though they are still estimates.
- There are no retroactive adjustments to the provincial estimates, until such time as actuals are published.

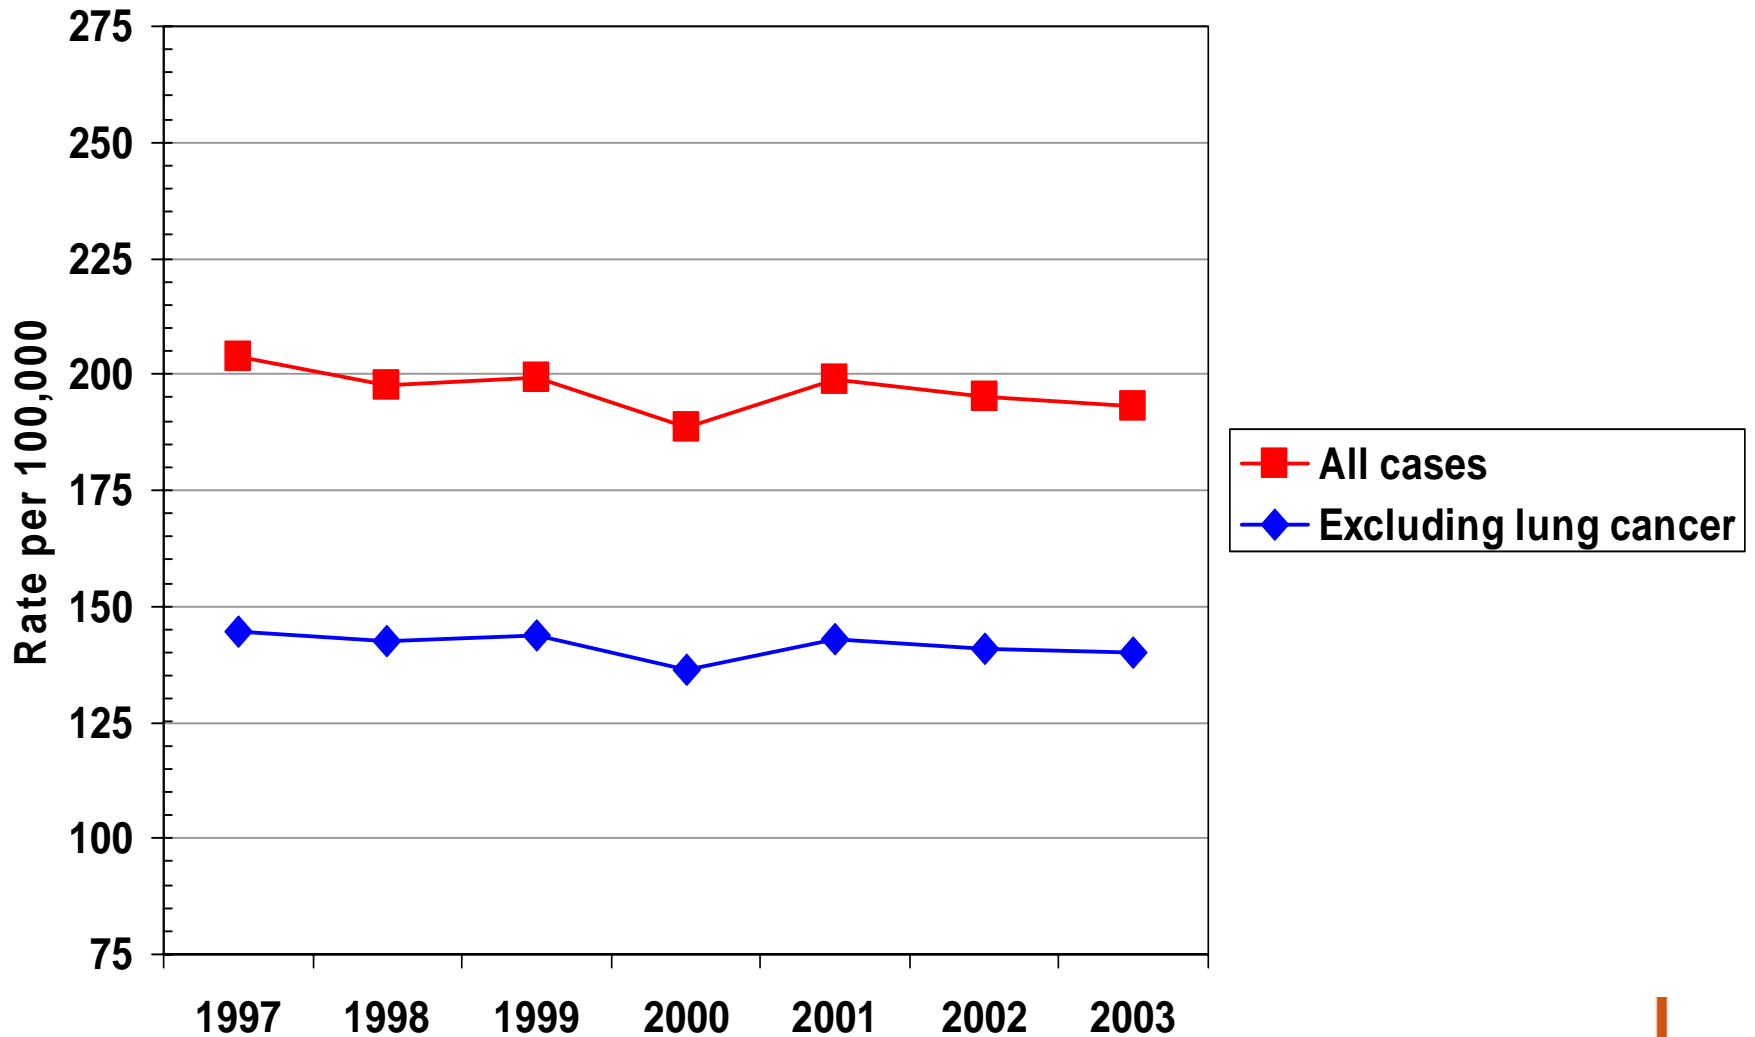

ASMR for Males 1997-2003 Canada

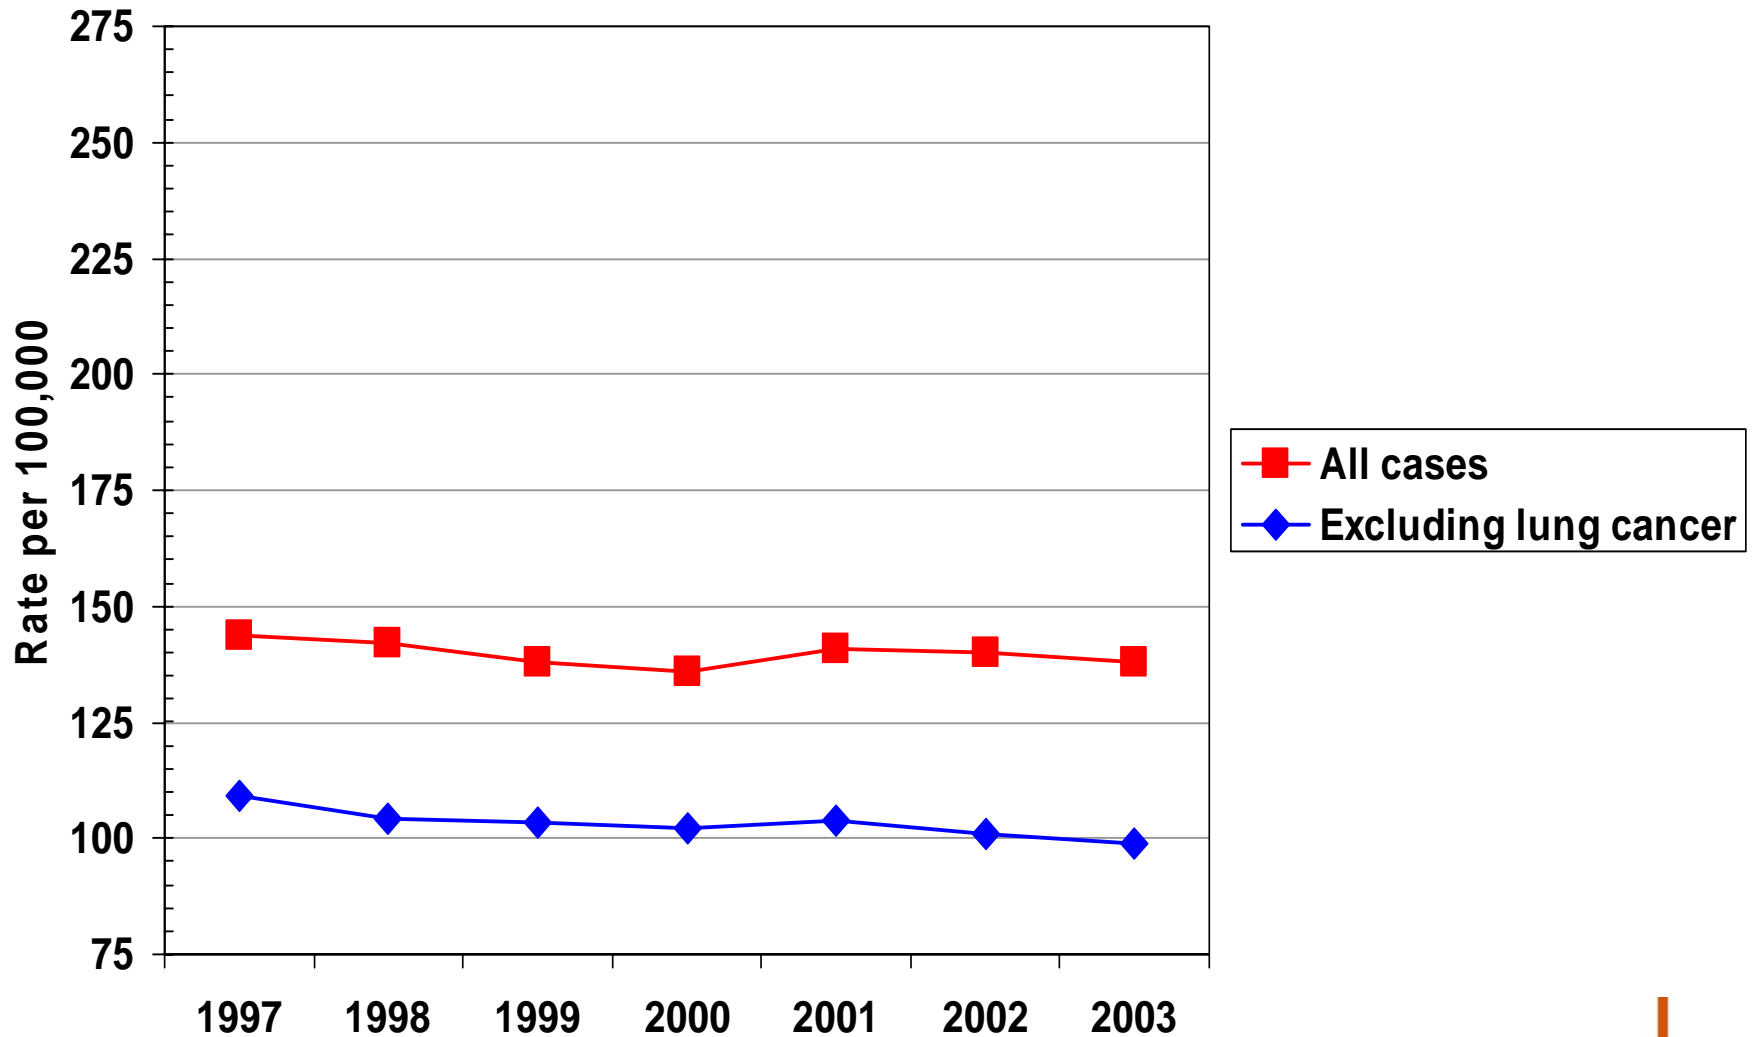

ASMR for Females 1997-2003 Canada

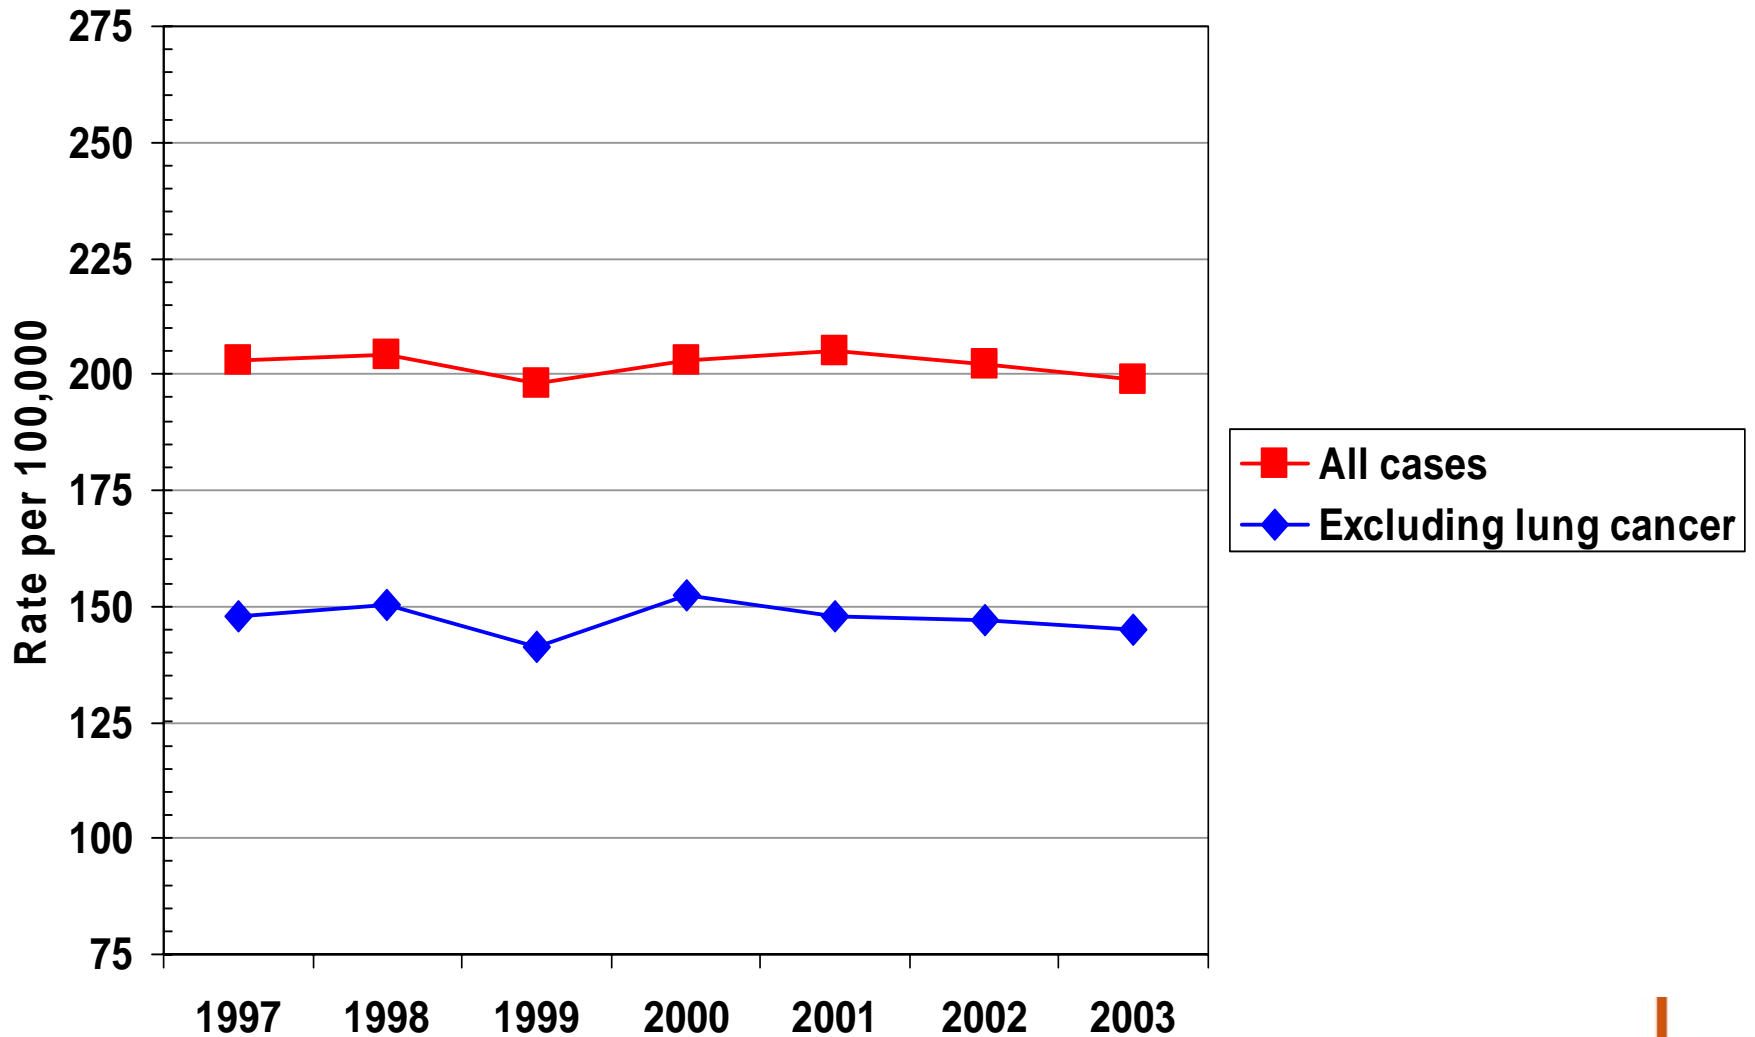

ASMR for Males 1997-2003 British Columbia

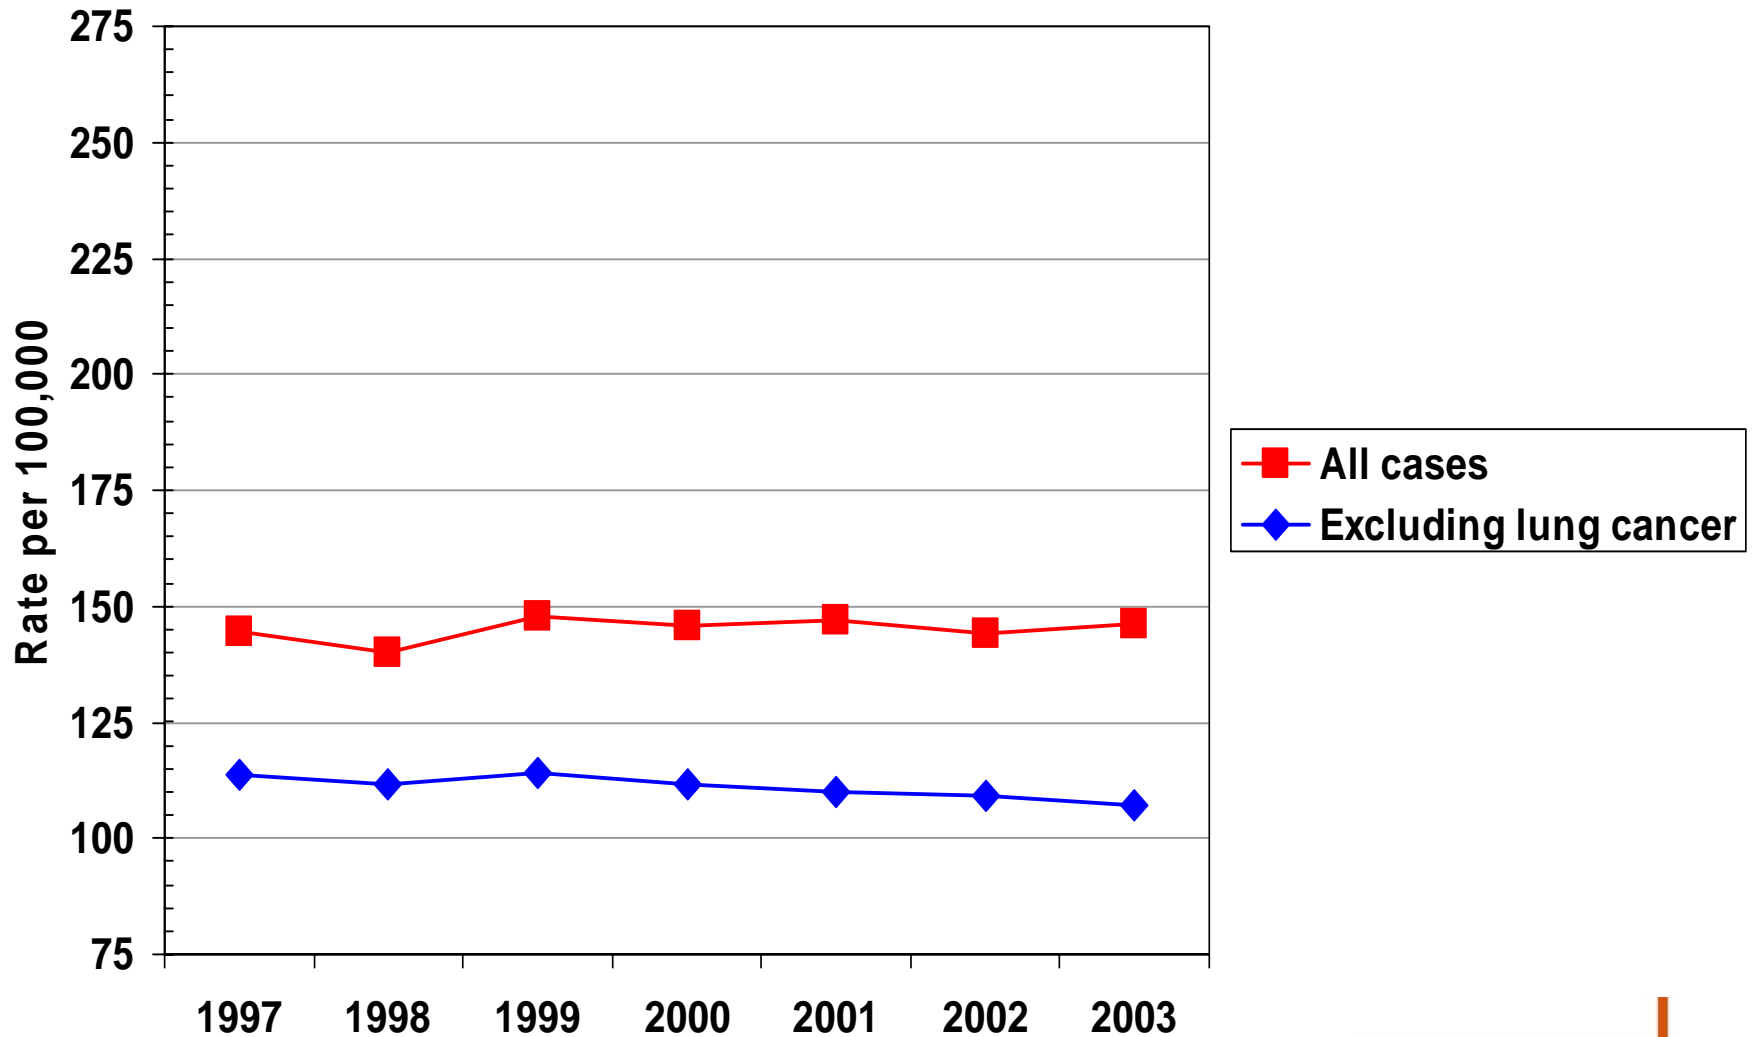

ASMR for Females 1997-2003 British Columbia

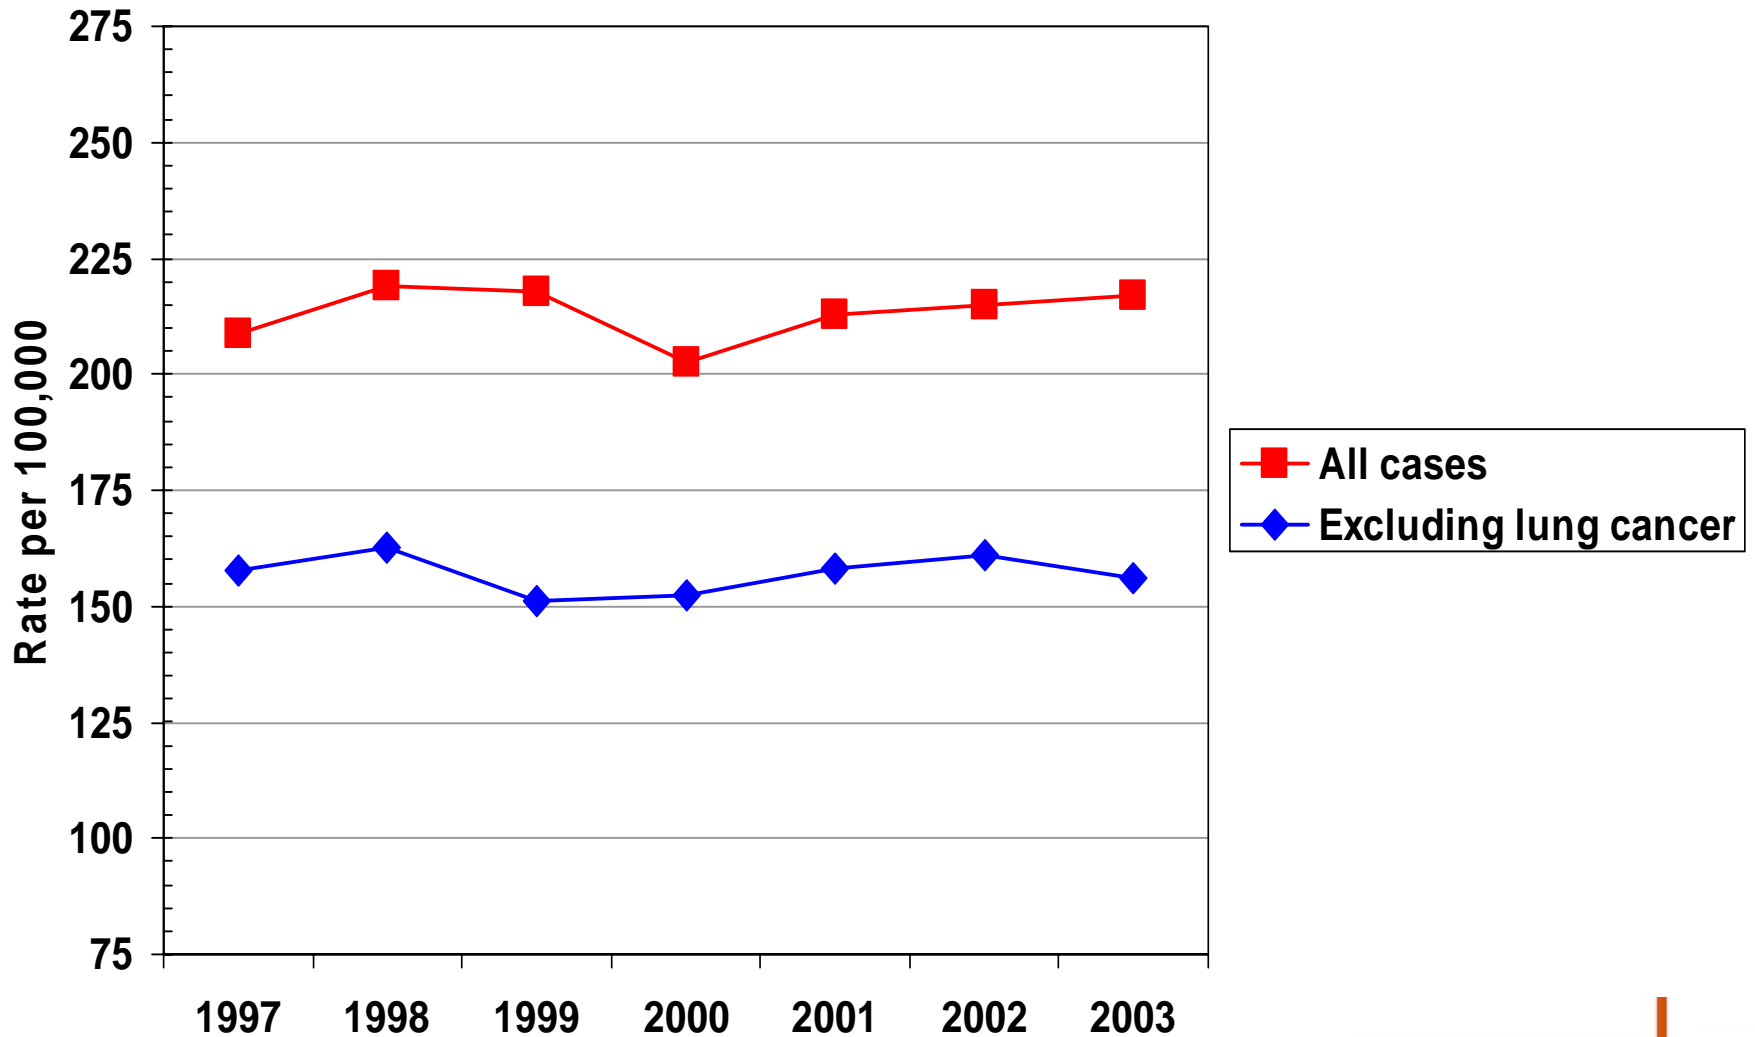

ASMR for Males 1997-2003 Alberta

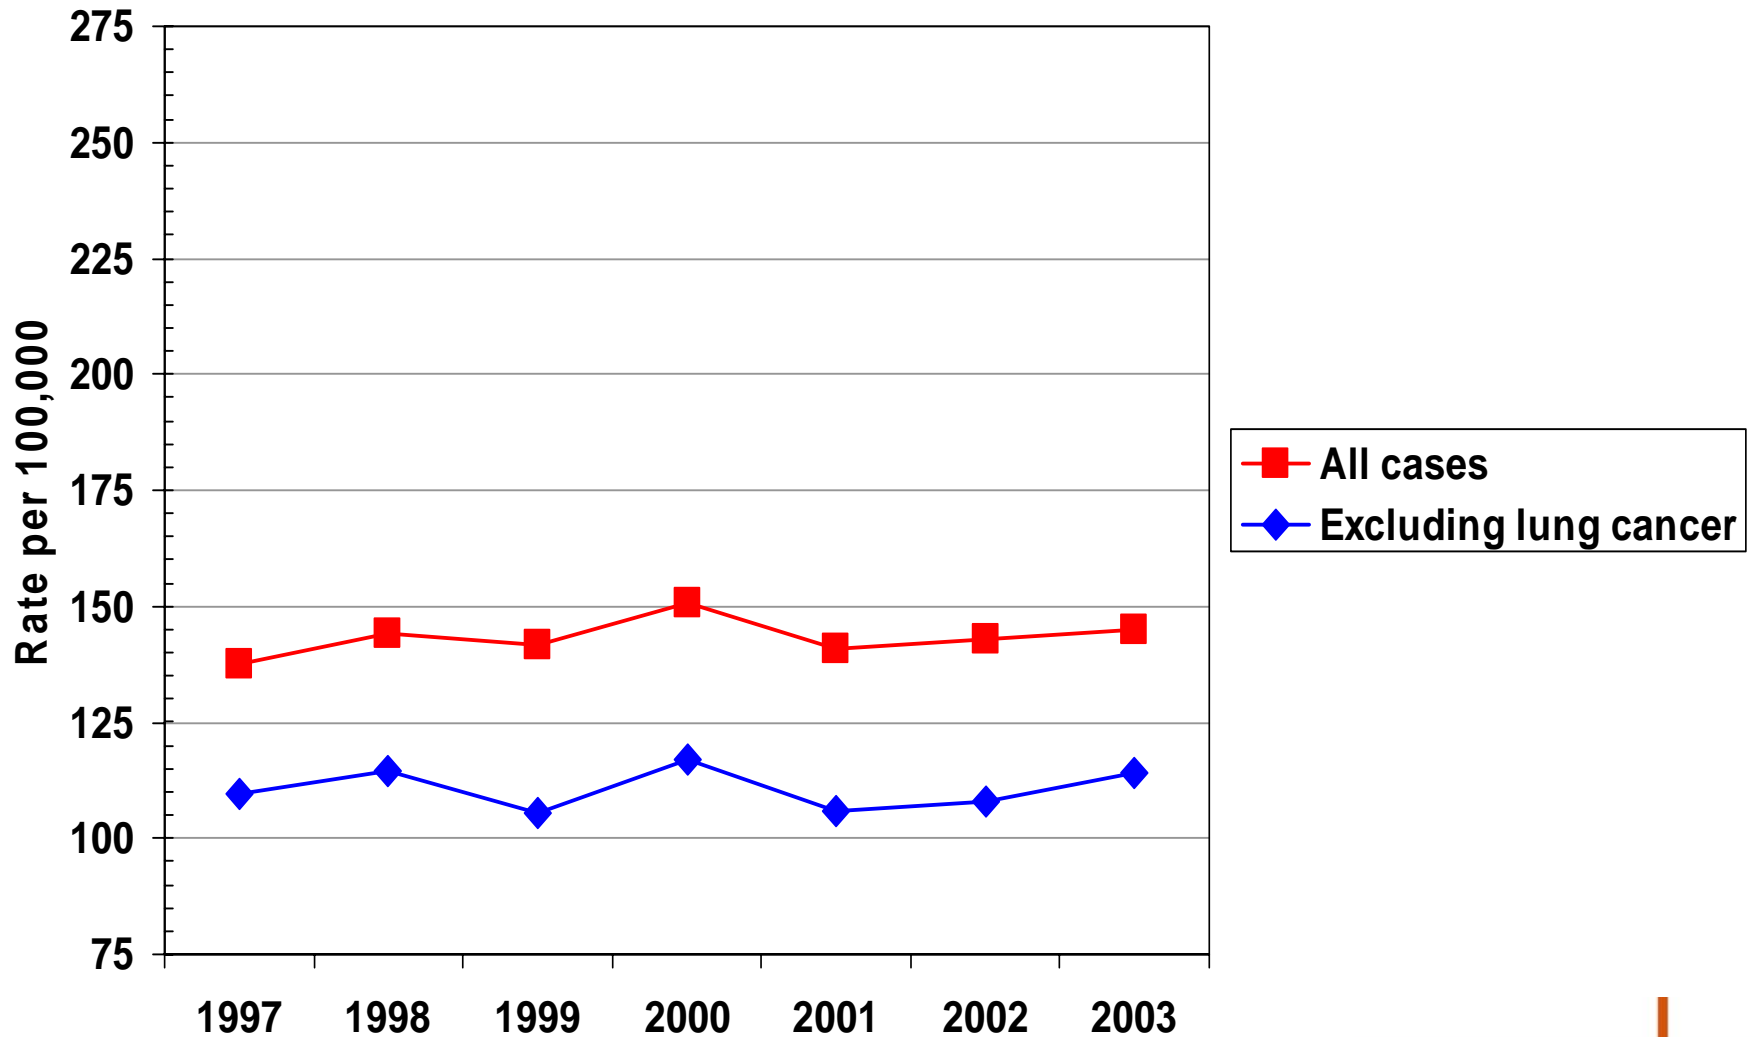

ASMR for Females 1997-2003 Alberta

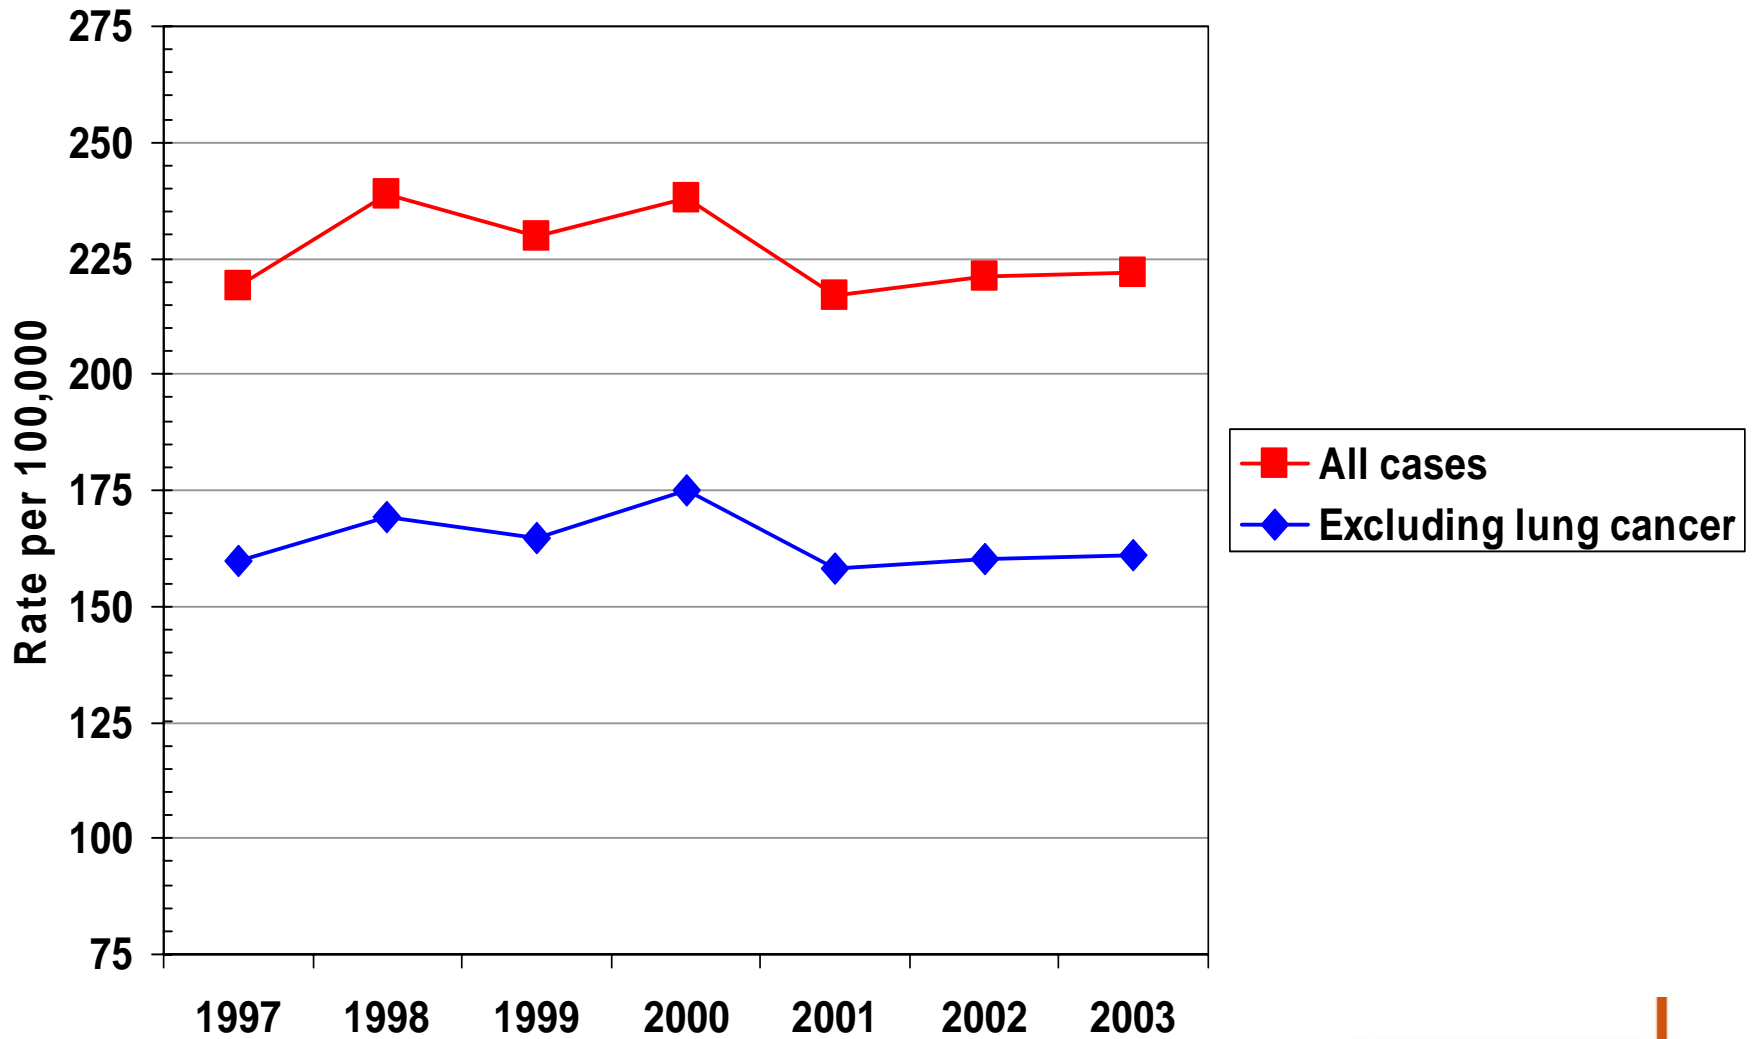

ASMR for Males 1997-2003 Saskatchewan

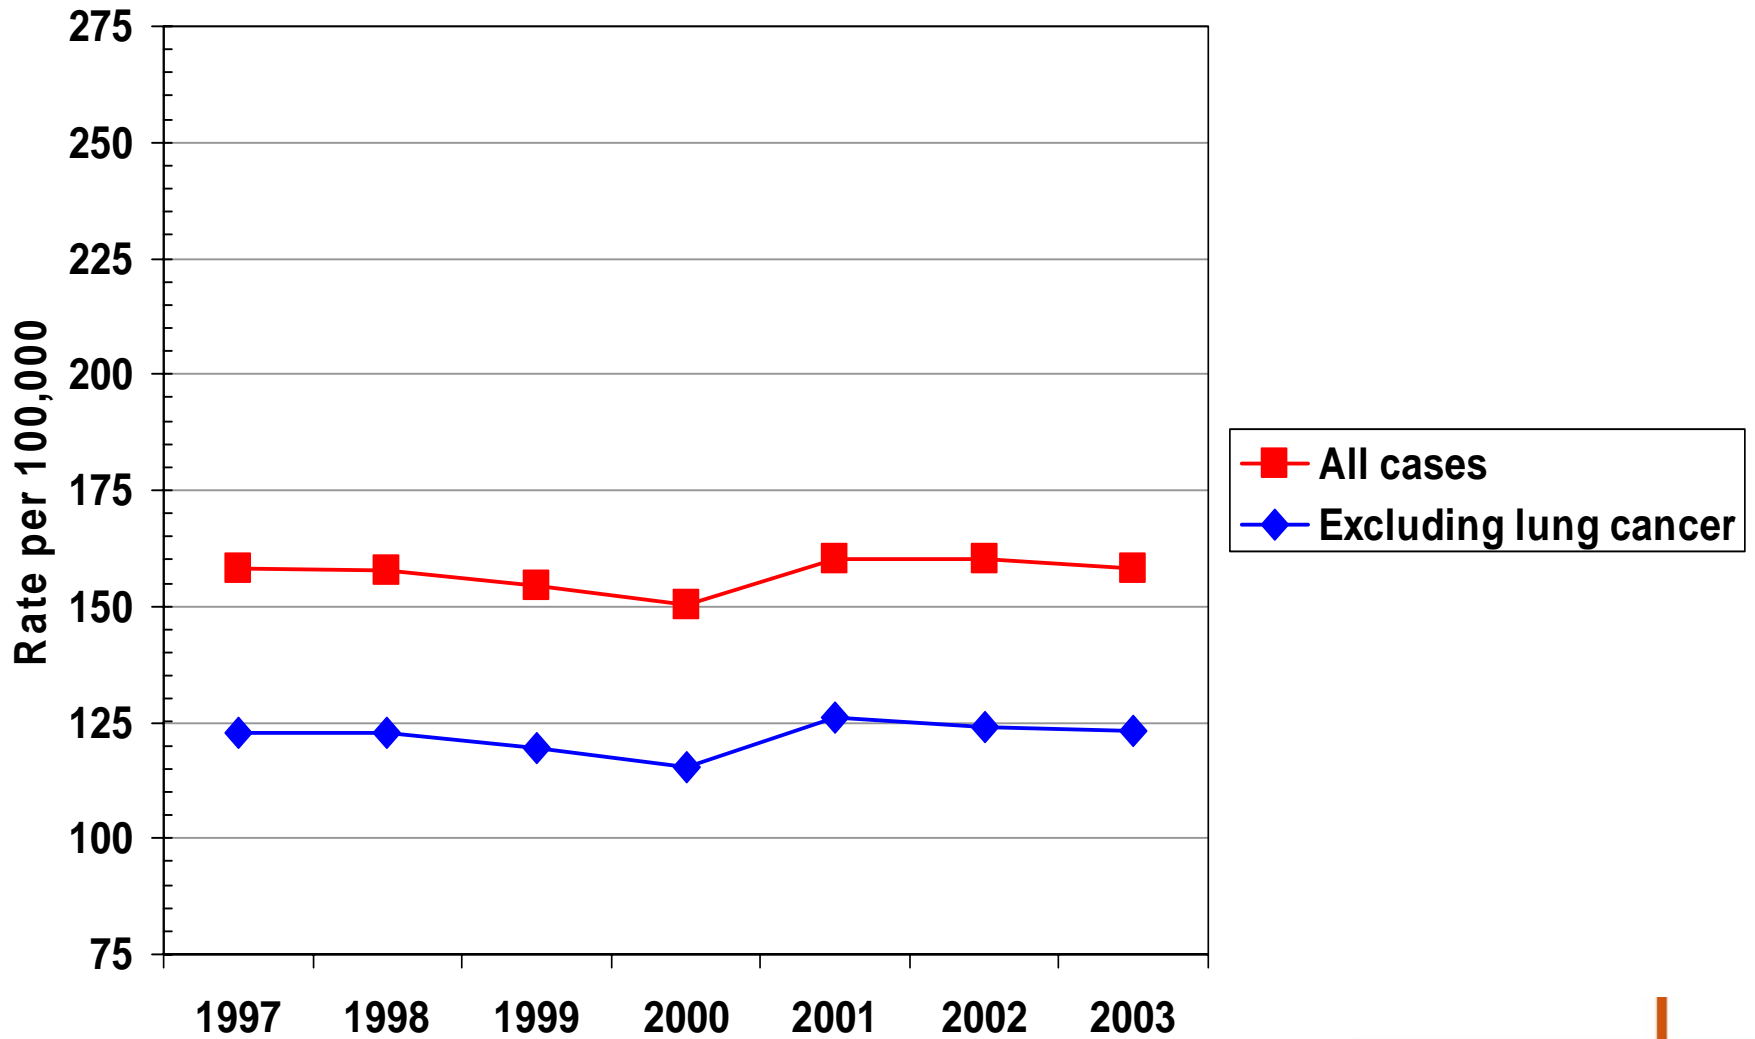

ASMR for Females 1997-2003 Saskatchewan

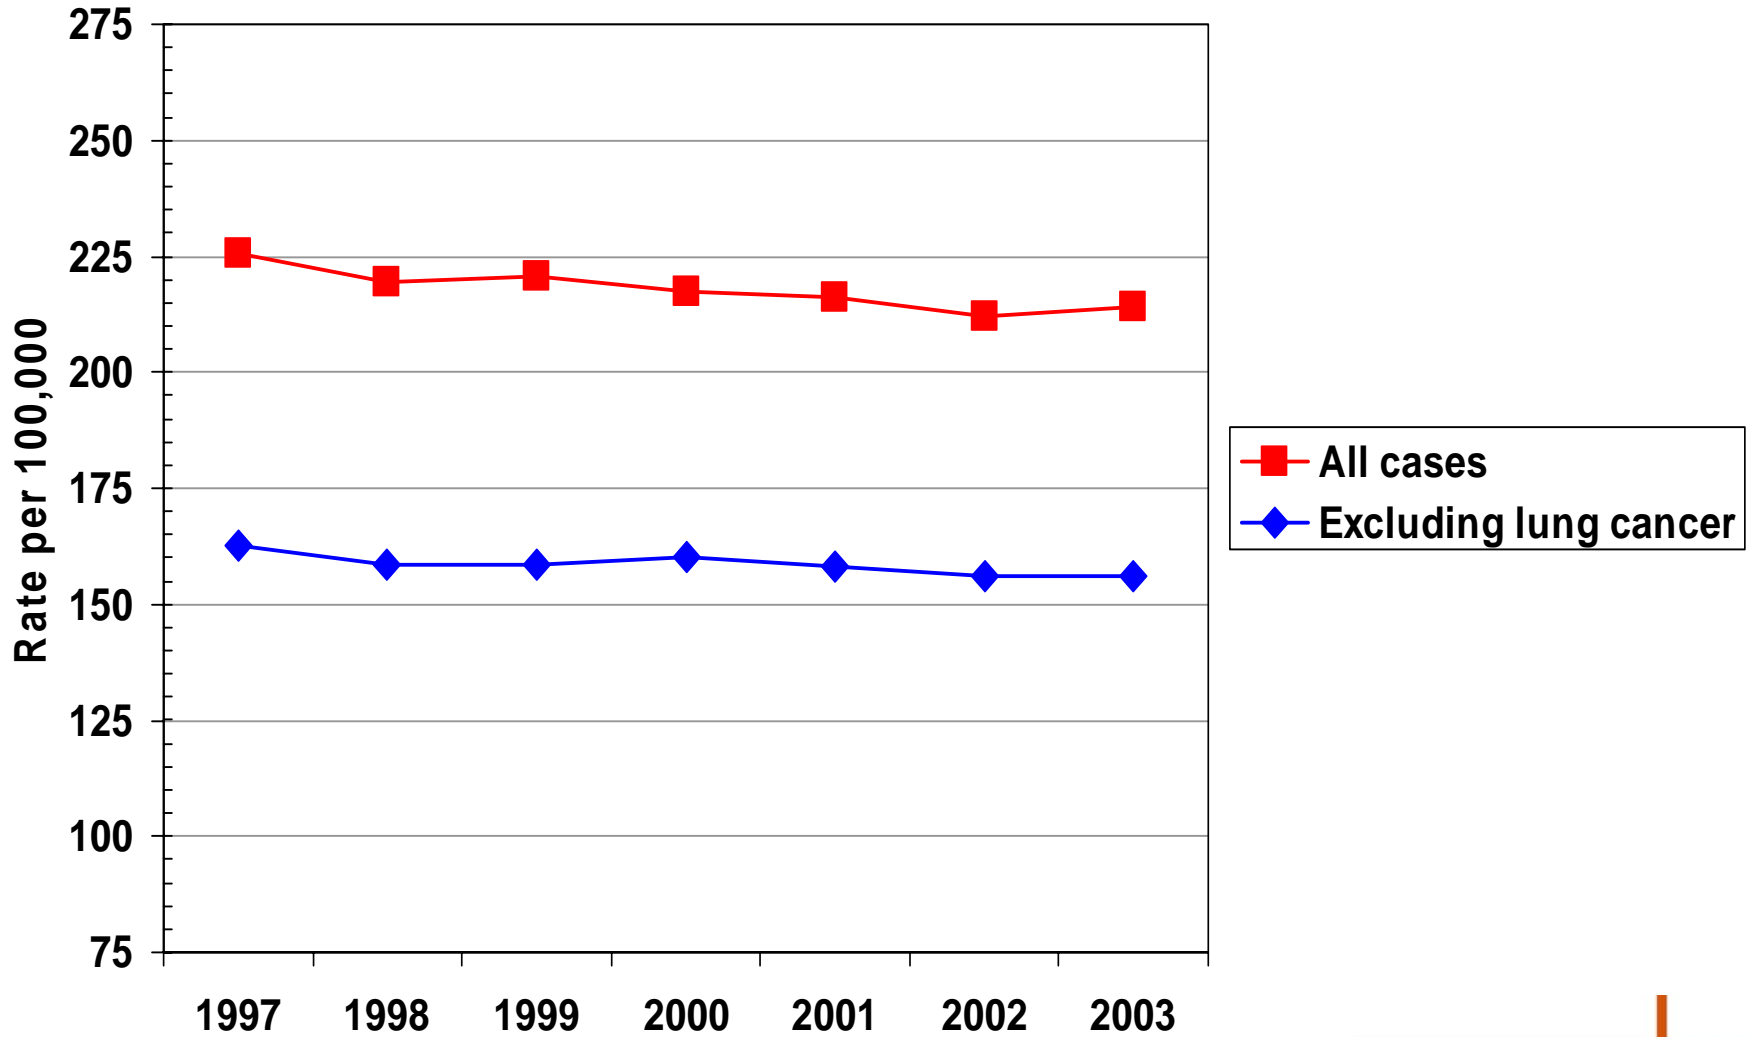

ASMR for Males 1997-2003 Manitoba

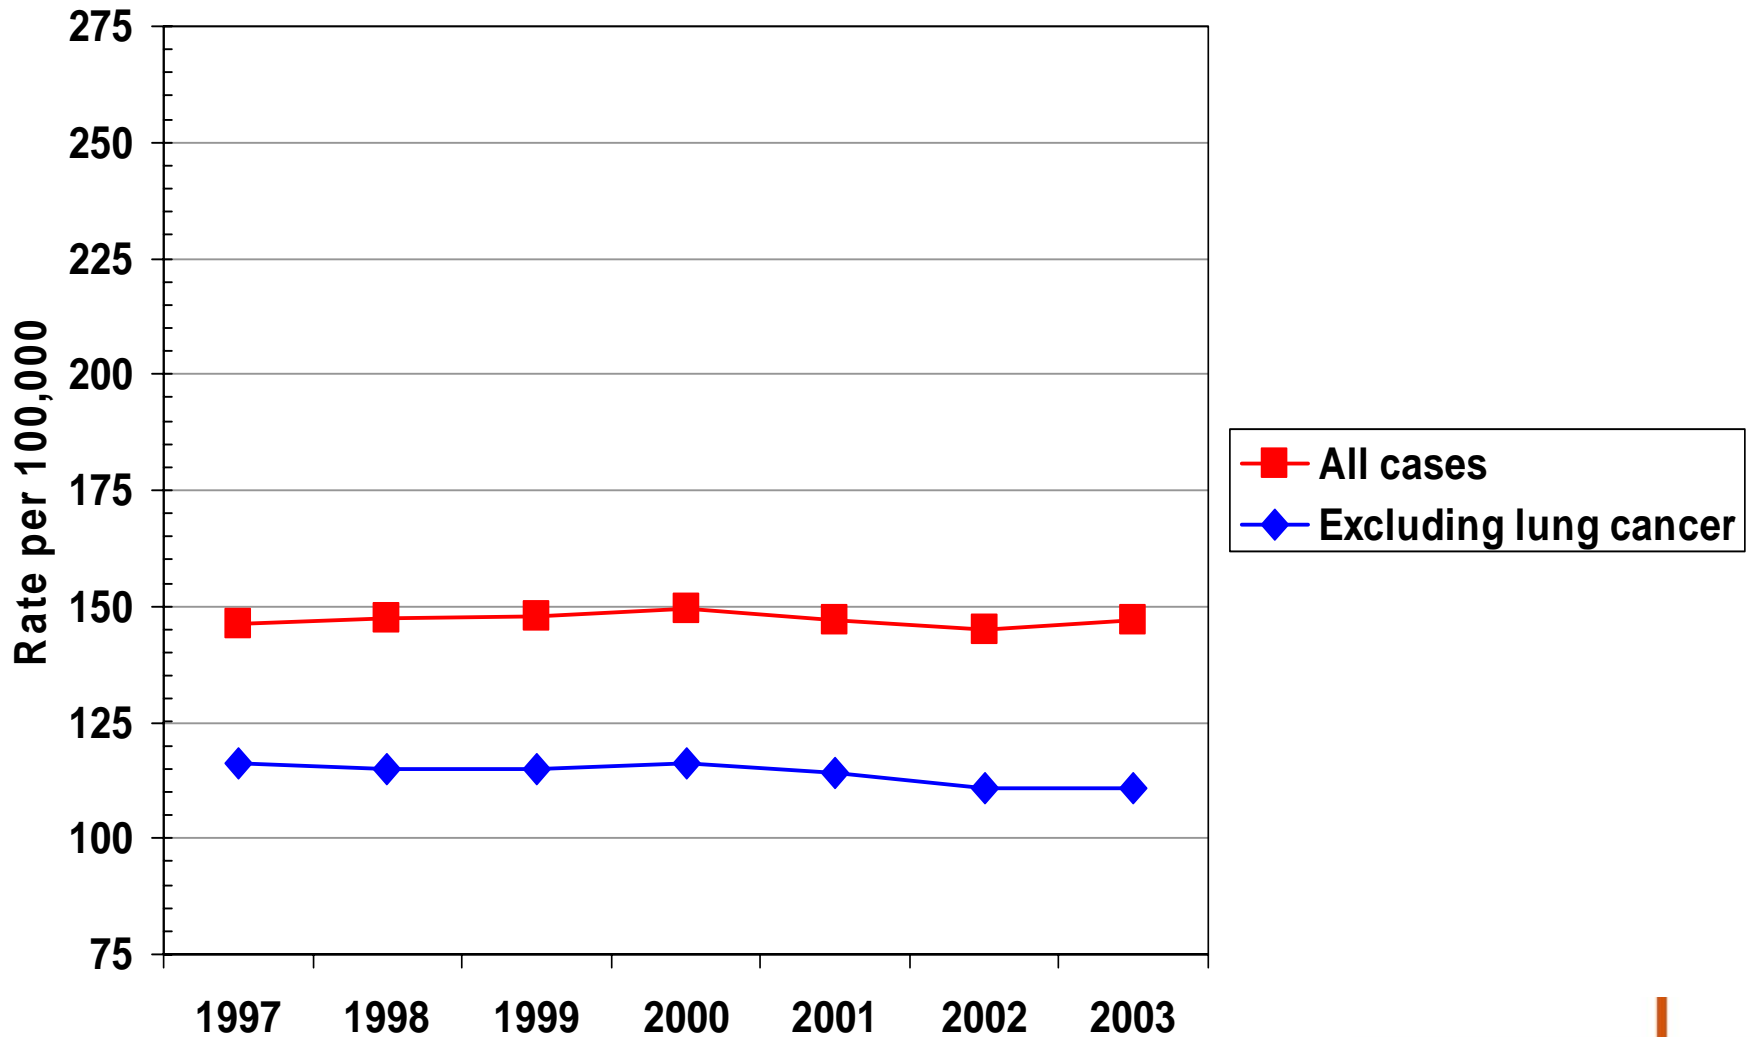

ASMR for Females 1997-2003 Manitoba

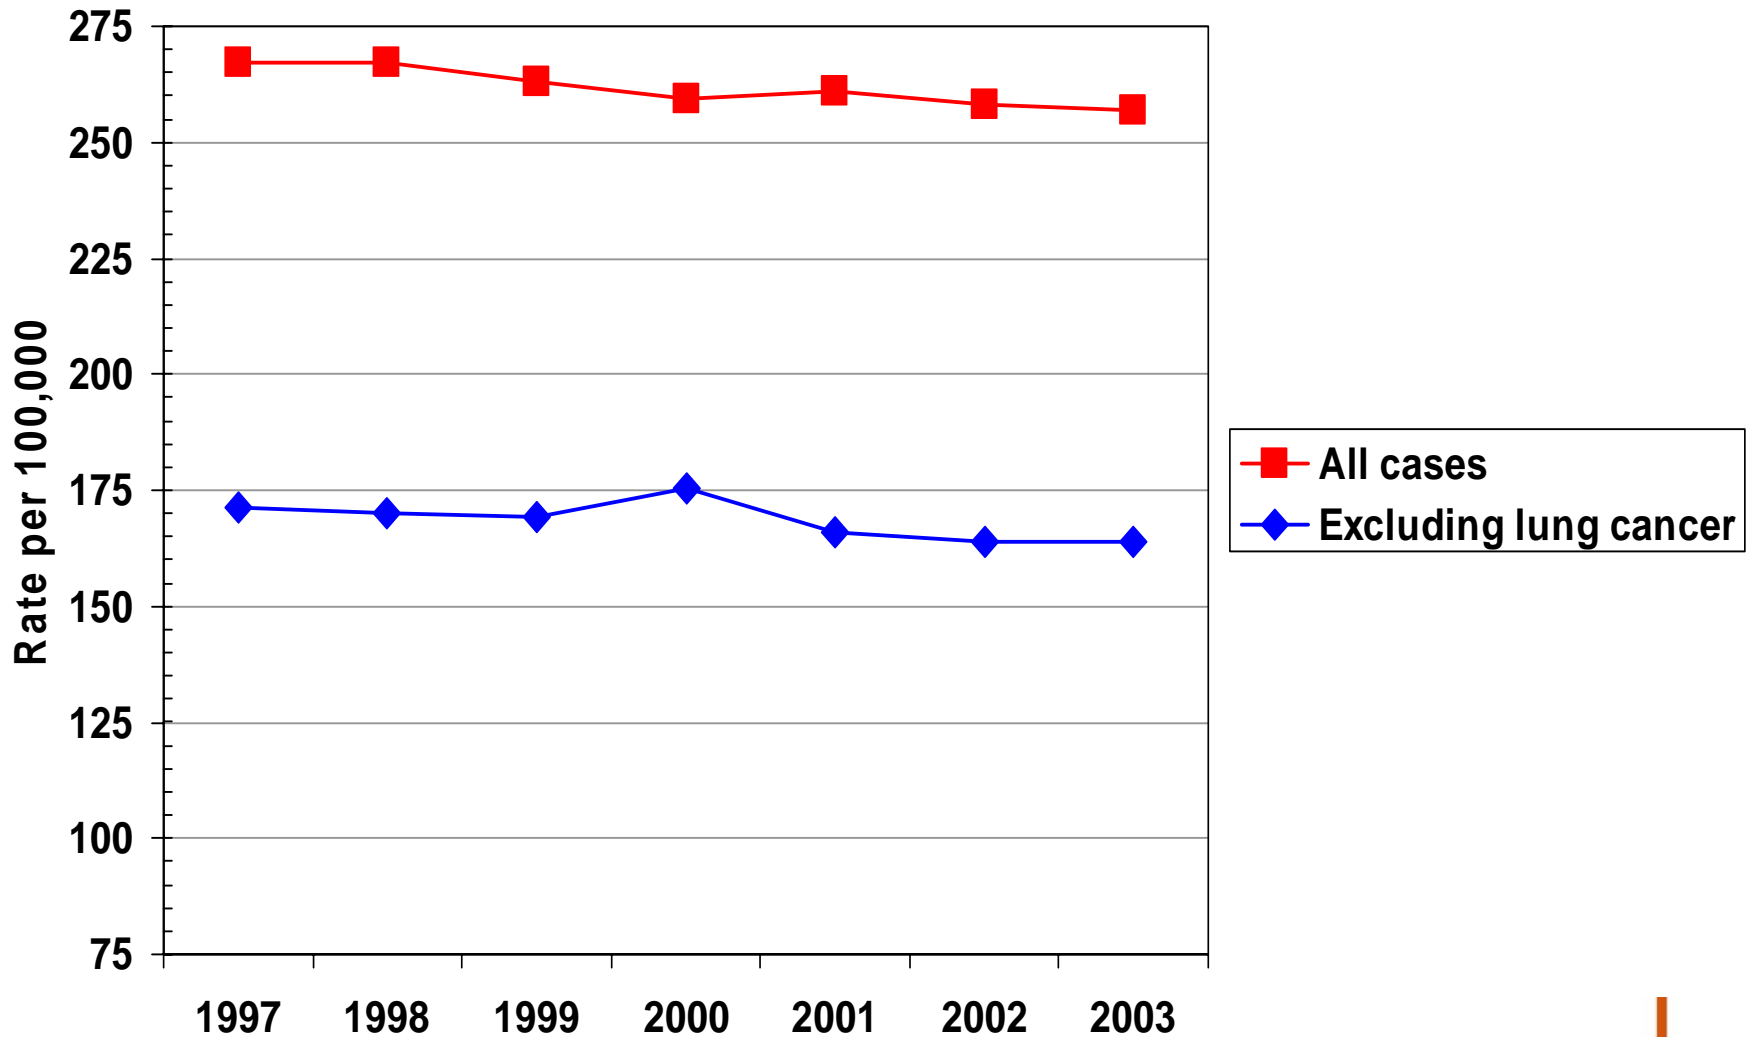

ASMR for Males 1997-2003 Ontario

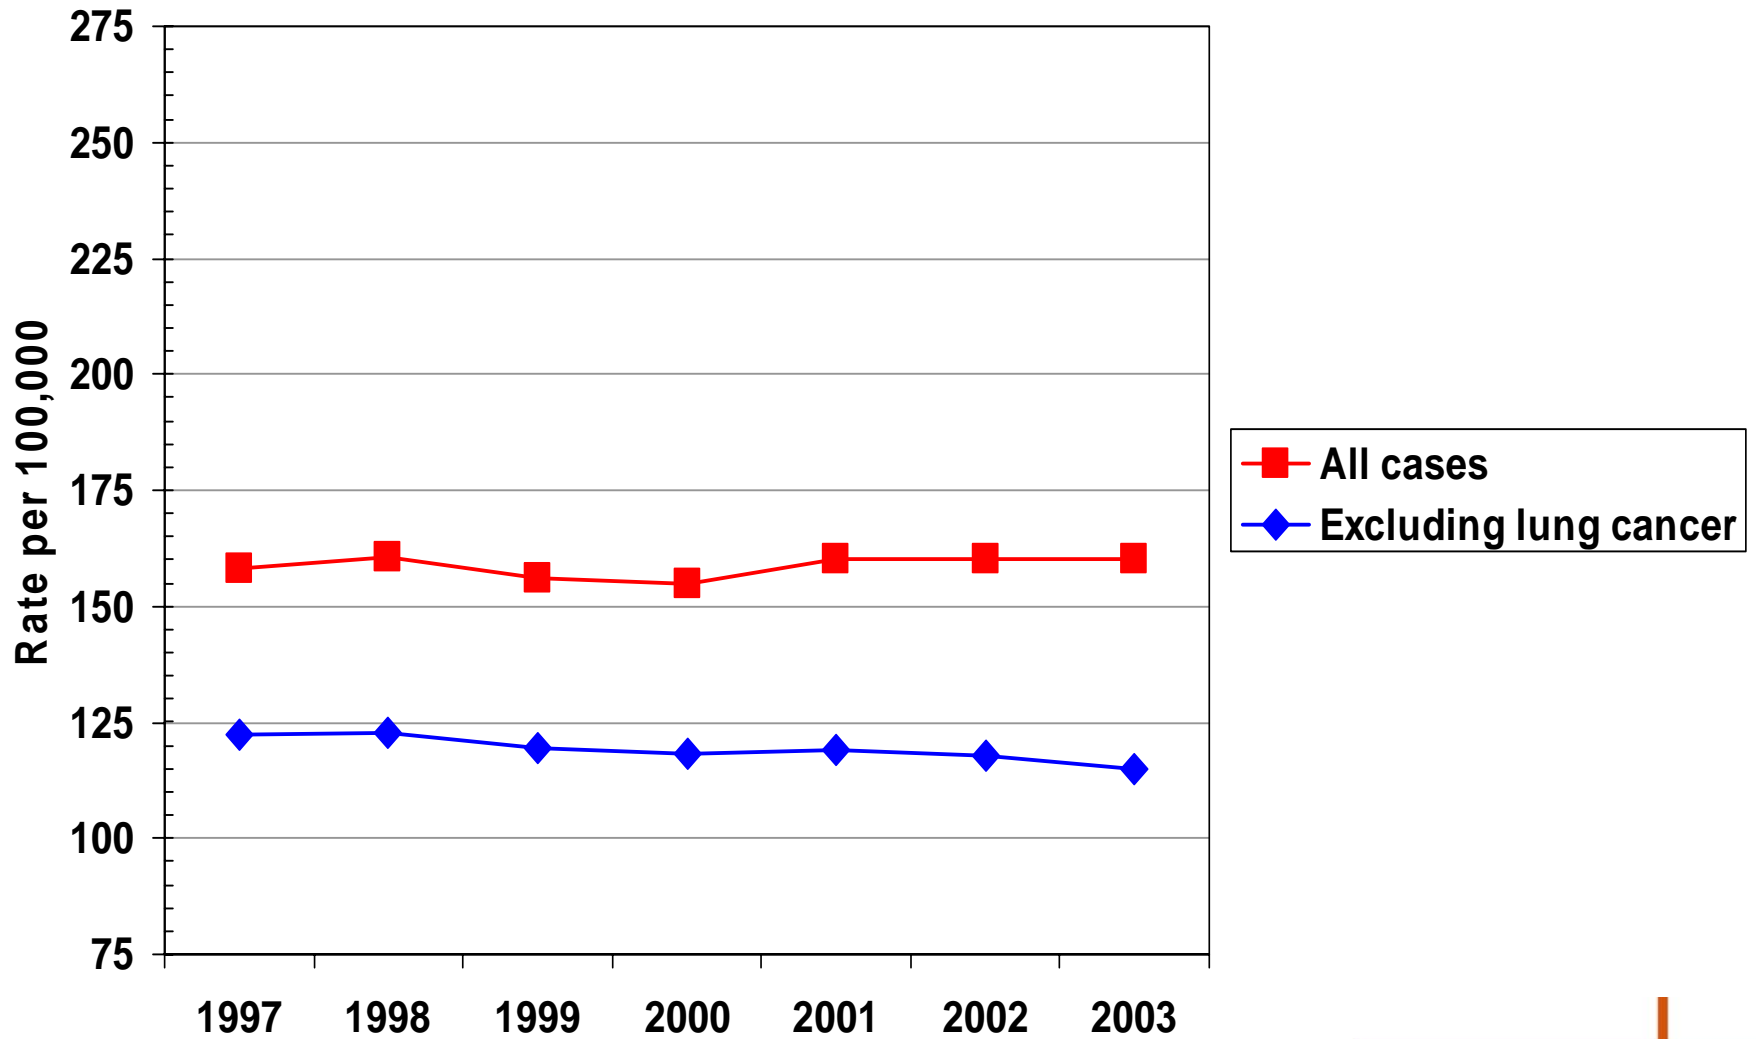

ASMR for Females 1997-2003 Ontario

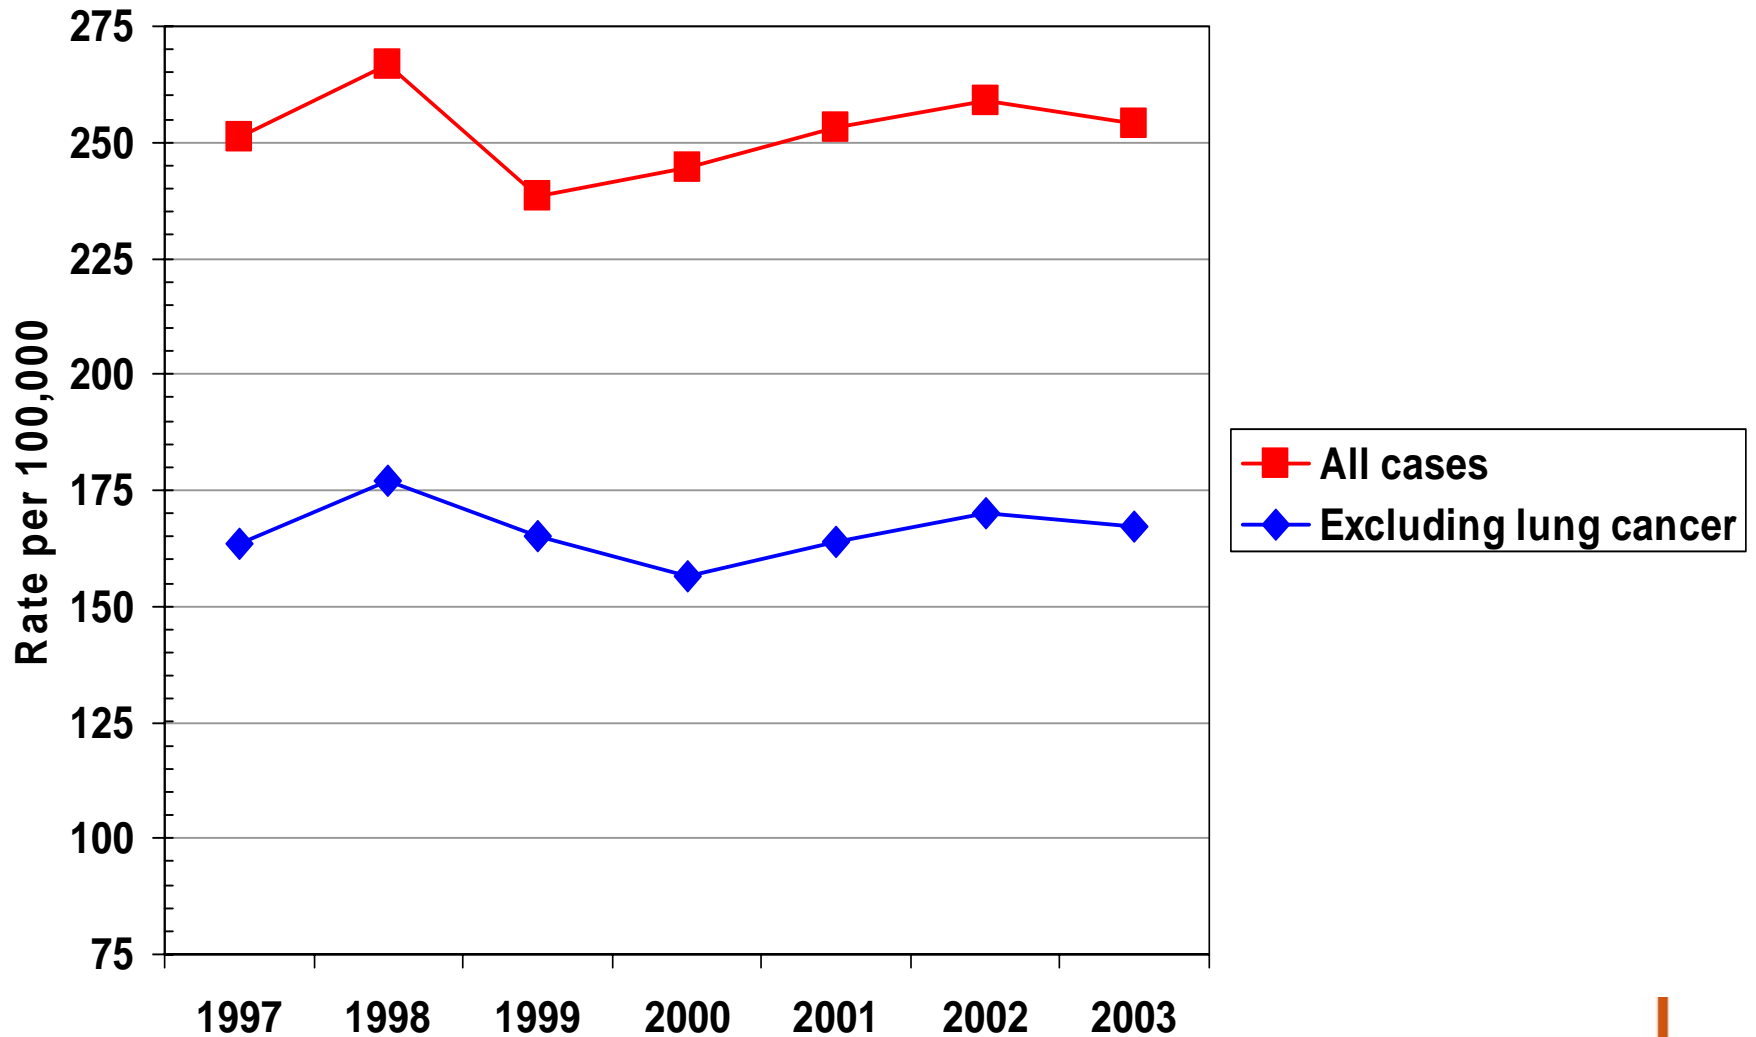

ASMR for Males 1997-2003 Quebec
